Vestas V164-9.5 MW power curve
Electrical output at standard air density
cut-in
3.5 m s−1
rated
14 m s−1
cut-out
25 m s−1
rated power 9.5 MW
Electrical power (MW)
Hub-height wind speed (m s−1)
Active OEDB V164/9500 curve: digitised points and the interpolation used by the energy model
Boundary points closing the curve (not OEDB data)
Retired original curve (undocumented; superseded)
